All activities in English!

Summer School 2021

Music & Drama | Master Chef | Workshops | Sports & Pool Games | Art

Ages 3 to 8 | June 23rd to July 16th

-EARLY YEARS NEWS-

Pre Nursery

GO TEAM!

This week in Pre Nursery our *Little Ducklings* have been working on their social skills; working with each other, sharing the toys and learning how to use words to deal with peer situations.

Nursery

This week the *Friendly Frogs* are designing their own 'Under the Sea' display, our current topic.

Experimenting with different Art techniques allows them to explore colours, different textures and a variety of crafty resources and tools that will develop their creative skills in the future. It also helps them to increase their repertoire of new vocabulary and everyday words and expressions.

Reception

This week the *Busy Bees* have been extending their phonics knowledge and writing skills into their role play. They love writing lists of what their peers want to eat in the cafe. They are learning about how to use their reading and writing skills in the real world.

-PRIMARY NEWS-

MONTHLY VALUE *Courage*

Having courage helps to persevere against challenges, and in the process it raises self-esteem. When children feel good about themselves and see that they have the personal power to make courageous choices, they feel more satisfied and successful. Examples in our daily school life when courage is needed:

Try new things even if they are scared

Keep trying to master a new skill

Do the 'right' thing in difficult situations

Admit to mistakes

This month will also help us to face the changes of finishing one year group and entering into a new one with courage.

Quiz masters

Disaster! Year 3 were on a trip to a wildlife park when they got stuck inside the small animal exhibit. The door was locked and they needed a passcode to escape! Luckily, the clues for the code were hidden around the room.

The children had great fun searching for the clues (some hidden in very strange places) and then trying to find the answer to the question written on the clue. This gave them a 6 digit code with which they could open the door.

DEBATE CLUB

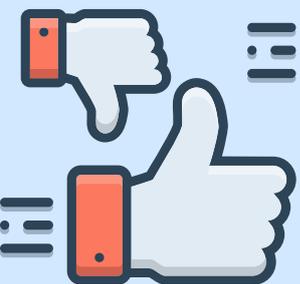

In Year 5 this term we have Debate Club with Ms Torrente where children have been developing their oral abilities, as well as the structure of the parliament and the members in it.

During this term, children in Year 5 have been debating if we should wear uniforms or not and reasons for it. They had a fantastic time getting ready for their speech, some of them showed a real flair for debating, parliament should watch out, they are coming soon!!!

Big congratulations to Valentina, Julieta, Natalia and Mariela who managed to work out the code first and allow everyone to go home safe and sound.

World Environment day – 5th Jun

Time spent among trees and the environment is never time wasted! Only with healthy ecosystems, we can enhance people's livelihoods, counteract climate change and stop the collapse of biodiversity. Nature has its own benefits for each and every species on this planet. Keeping all this in mind, every year on 5 June, the world celebrates World Environment Day, a day marked for nature. From animals to humans; from the food we eat to the air we breathe, the water we drink, and the climate that makes our planet habitable, all comes from nature itself.

World Environment Day offers a global platform for inspiring positive change in the environment. It pushes individuals to think about the way they consume the ecosystem and gives them a chance to take action to build a greener future.

In 1972, the United Nations (UN) General Assembly designated June 5 as World Environment Day (WED). Since then, every year, governments, big businesses, and citizens around the globe put in their efforts to address environmental issues. This year too, millions of people around the world will be celebrating this day digitally.

Students from KS 3 researched and designed a poster to celebrate World Environment day in which they all hoped would produce a better future for everyone.

-HIGH SCHOOL NEWS-

WAKANA TRIP

Last Monday, our High School students had the opportunity to visit Wakana, which is in the centre of the Alcornocales National Park. With outstanding sceneries in an amazing environment, our students enjoyed different activities, like zip line, kayak and paddle surf. We hope that, little by little, we can continue introducing these kinds of activities and start to recover the social life at school, so important for our students.

SWIMMING

As part of our Physical Education programme, we encourage our High School students to continue developing their swimming skills. In this way, they can learn more about aquatic activities, like the different swimming strokes or how to play water polo. Doing sports is really important for physical and mental health, as well as it has a positive and important contribution to learning.

HIGH SCHOOL GAMES

Also as part of our social life and physical education programme at school, this week, we have started the I High School Games. Our students will play different sports: basketball, football, volleyball, water polo, chess and table tennis are the different options they have. Here, we bring one important skill, teamwork, and one of our school values, respect, as the main advantages that our students will have by participating in the I High School Games.

SCHOOL NUTRITIONIST TIPS

Find some **healthy tips** from Gloria Contreras, our school nutritionist.

MEET OUR STAFF

THIS WEEK...

Ms Duque

ABOUT ME...

Hello! My name is Ana Duque. I studied Teaching as a foreign language specialised in English at the University of Cádiz and then, when I realised that the little ones were my real passion, I decided to do a Master's degree in Pre - School education. My studies allow me to live and know countries such as England, Sweden and the EEUU, discovering how education is in these countries and knowing many types of techniques and ways of teaching that were so useful for my professional development. I arrived at the Sage College family in 2017.

So far, I have worked as an Auxiliary teacher both in Primary and Early Years, also, I was Mentor of Year 1 and this year I had the opportunity to be in charge of the Nursery and Pre - Nursery class.

HOBBIES AND PASSIONS...

Since I was little I have been passionate about animals, currently I have two cats and soon I hope to be able to adopt a puppy. I love going for a walk on the beach, although I also really enjoy practicing sports; doing routes, taking the paddle board, playing paddle tennis and horseback riding are some of my favorite hobbies. On the other hand, whenever I can, I take the opportunity to travel and see new places, but without a doubt what I like the most is spending time with my family and friends.
