Sage College in the final of the Junk Kouture competition

Six of our Year 9 students have been finalists in this international recycled clothing competition with their designs "Pavo power" and "Meditative rose". The grand final will take place in Paris on the 25 May. Good luck, we are proud of you!!!!

MESSAGE FROM OUR SCHOOL HEAD

Dear Sage College community,

I believe that every human being is the result of an accumulation of experiences that throughout one's life shape us to be what we are at this moment. That is why I believe that learning and training are continuous, infinite processes in which only at the end of our lives will stop. I myself had dreams as a child, then as a teenager and as a young man that were far from what I am today. Life has shaped my decisions until I became what I am today. I went through the phase of wanting to be an elite athlete, a fireman, a musician, a doctor and finally a teacher. I never studied to be a School Head (nor is there a specific degree to become one) but it was the accumulation of experiences and above all, people I admired that guided my path to what I am today.

As I look at our students at Sage College, their goals, aspirations and dreams, I can only recommend that in addition to always striving and giving one hundred percent in everything they do, they should be filled with experiences that enrich their path and life. One of our goals at the school is precisely this additional framework from which our students will benefit and which gave me so much in my youth. To think that in addition to acquiring knowledge and achieving the best academic results, they will be able to go on stage and perform the musical Grease musical, organise a charity initiative to help the needy or run in an athletic event representing their school. There are so many formative experiences happening in the lives of the pupils that I can only accompany them and encourage them to want to do and be more in these important years of their lives which, much to the regret of those of us who are no longer there, will never return.

Mr Wickham

Travelling Mascot

The Friendly Frogs are taking part in the Travelling Mascot this year, and how they are enjoying it!

This activity consists of **taking Charlie**, our faithful classmate and who accompanies and takes care of us daily, **to their homes and spending a few days with them as a guest**. The students, with the help of their families, write down their adventures with Charlie in his personal notebook and graphically document everything that happens during these special days together. Once back in the classroom, the students show their classmates their adventures during the assembly, when we all sit together to say good morning, share personal events and learn from each other as a large group.

Sharing their experiences with the mascot promotes their **speech skills and speaking in front of a large group**, establishes emotional bonds, encourages responsibility, and allows opportunities for open-ended play. It's all good things to spend time with Charlie!

Year 5 this week

This week, Year 5 went petal to the metal with our topic on plants. **We designed our own flower art in the style** of the renowned, American artist, **Georgia O'Keefe.**

We also got our hands dirty when we dissected plants to see each part up close. We learnt that not all plants have the same parts and how flowering plants reproduce.

We had lots of fun, we're not dandelion!

YEAR 7 LANGUAGES

CHINESE CHARACTER LITERACY PROJECT

To help the Year 7 students overcome one of the most difficult aspects of learning Chinese, they were introduced to the **historical development of Chinese characters** and made their own **pictograms**. This project also helped the students to learn Chinese by associating some Chinese characters in a book they are currently reading in English class called **Chinese Cinderella**.

QUEL EST TON SPORTIF PRÉFÉRÉ?

This week, Year 7 French students have been learning to **talk about sports and their different hobbies**. They made a research and created a presentation about their favourite sportsperson. Here is one example:

"Je m'appelle Jordi. Je suis assez sportif. Je joue au football et j'adore la natation.
Mon sportif préféré c'est Michael Phelps.
Il fait de la natation. Il est né aux États Unis, le 30 juin 1985. Michael Phelps a remporté 28 médailles"

Shaping THE FUTURE

We would like to encourage our Year 13 students to continue working hard. For that reason, we will be sharing where our students have been accepted at university. They play an important role model for the younger students at school. This week, we bring **Manuela Parodi Serna. She has been accepted at University of Amsterdam and The Hague University (both in the Netherlands)** for the following courses: Communication Science and Hospitality Management. Congratulations!

This is one of our main advantages: the **international education that our students receive**. In this way, the internationally recognised qualifications that they complete in High School, IGCSE and A level, allow them to access any university around the world. For instance, **in order to access universities in The Netherlands, in general, students need to have 5 IGCSE and 3 A levels**, as can be seen in the following slide. 5 IGCSE and 3 A levels are also the typical academic requirements to access international universities around the world.

THE NETHERLANDS

WHY THE NETHERLANDS	REQUIREMENTS	TUITION FEES
	<ul style="list-style-type: none">- Academic: 5 IGCSE (C) + 3 A levels (E). In general- Age: 18 (exceptions)- Others: admission tests, work experience, volunteering activities and others	<ul style="list-style-type: none">- EU/EEA students: 2100 Euros approx- Non EU/EEA students: 8000 Euros approx- Scholarships available in some cases.
HOW TO COMPLETE THE APPLICATION	DEADLINES	USEFUL LINKS
