INAUGURATION OF STUDENT LEADERS

This week we celebrated a very special Whole School Assembly where we presented the Sage College Student Council 22/23 to our whole community. Here you can see who they are.

MESSAGE FROM OUR SCHOOL HEAD

Dear Sage College families and students,

It is exciting to see how this week, some of our students have volunteered to represent their peers and their school as part of the Student Council. At a time when politics in general is losing respect for its ineffectiveness and grotesque lack of values, we can say that at Sage College the true spirit of those who want to represent their peers has risen with a deep sense of responsibility, mediation and pride. Being part of the Student Council is and should be a matter of pride for any student as it means that you have been chosen by your friends because they trust your judgement, vision and leadership.

A leader or leadership, according to the RAE means **"A person who directs or leads a political party, social group or other collectivity"**. Such people, as we have seen throughout history, and unfortunately in the present, can exercise autocratic and destructive leadership that will always lead to failure. In this case, our young leadership team, led by Gonzalo and Alicia, as Head Boy and Head Girl, will exercise that positive leadership of the student body with the support and guidance of the school, its teachers, coordinators and of course myself. I am extremely grateful for the commitment of each and every one of the members of the Sage College Student Council 22/23 and I know that great things are going to happen this year in the hands of this magnificent students, so... lets go, team!

Mr Wickham

PreNursery News

'Let's paint!'

Following the theme of 'All about me' this week the Dinky Ducklings had lots of fun painting self-portraits in the garden. They practiced their fine-motor skills and showed great artistic expression. **The foil surface was a great sensory experience** as they could explore sound while painting and they loved the smooth texture to mix colours.

Throughout the activity, they enjoyed putting into practice the vocabulary they had learnt in our Circle Time action songs about **rainbow colours** and body parts.

Year Two News

“Programming”

In ICT in Year 2 the children start learning the first skills of programming. Programming is an important skill for children, not only because it is useful for many jobs, but also helps the children develop creatively, encourages persistence and boosts problem solving skills. For the first three weeks of term they work using beebots or other floor robots, programming them to make them move. This enables them to see the reality of what they do later on the computer.

The children start off by learning about the different controls, what they need to do to make the robot move and that it is imperative to use the ‘clear’ button so instructions given are not repeated over and over. In the second lesson they work in small groups, without adult support, in order to have more time to experiment with the controls and make the robot move with more purpose.

In the last lesson, before they move on to programming using computer software, the children have to work out how to make the robot move exactly from point A to point B (or as close to as humanly possible). All the children I have worked with really enjoy these lessons

- MIDDLE SCHOOL NEWS -

Our Workshops Nothing New, Just Review!

This year we have introduced a special new **workshop in Middle School called *Nothing New, Just Review!*** It is an excellent chance for all Middle School students to **review the concepts from their subject classes** and get some extra support when needed.

This term, Year 7 have been working very hard in their **NNJR workshop with Ms Pike and Mr Bostaph to review Mathematics.**

Games and puzzles give students opportunities to explore fundamental number concepts, such as the counting sequence, one-to-one correspondence, and computation strategies. Engaging mathematical games can also encourage students to explore number combinations, place value, patterns, and other important mathematical concepts. In their lessons Year 7 have used a wide variety of games, videos and helpful websites such as **our online platform Myimaths**, to help consolidate their knowledge. In particular they have reviewed integers, operations, and sequences.

INTERNATIONAL Widening our horizons

Internationalism is one of our main school values. This school year, we have welcomed **many new students in High School**. These students come **from different parts of the world**, and are a great addition to our school community. We are sure that Sage College will become a family for all of them and a safe place to grow personal and academically.

These are some of our international nationalities:

GERMANY

USA

UK

COLOMBIA

NORWAY

SWITZERLAND

UKRAINE

SLOVAKIA

ITALY

KENIA

CZECH REPUBLIC

RUSSIA

MAKING A SPLASH IN CADIZ

Sage Boarding 2 night, Residential Trip to Cadiz

Last weekend we took our **first residential trip of the year**. The purpose of this trip was to allow the boarders to get to know the area close to school and spend some good time on the beach.

Our 2 nights and 3 days was a **wonderful opportunity for the boarders to get to know each other even better**, in a relaxed, yet fascinating environment. The history, architecture and beautiful beaches left us wishing we could stay longer.

Meals on the beach, sightseeing bus tours and walks through **the old Cadiz cobblestone streets**, in what is argued to be one of the older, if not the oldest towns in Europe, was breathtaking.
