Work on the new sports complex is on schedule and on time. We have been working for more than three months now and we are very excited about the results we are seeing day by day. Once we have finished the earthworks, the groundworks and the levelling, we have finished the perimeter fencing and next week we plan to start the asphaltting phase of the whole complex, which will be the basis of the definitive sports surfacing.

-EARLY YEARS NEWS-

PHONICS MADE FUN TRICKY WORDS

This week the **Busy Bees** have been practicing their **tricky words through traditional games**. Marching to the sound of **Star Wars**, they played **musical chairs** but with an interesting twist. When they sat down, the **Busy Bees had to read the tricky word on their chair**. Help was always on hand from a peer if someone was unsure of a word. Then with great excitement, they marched until the music stopped where a new word was awaiting them. A great way to read lots of tricky words.

ART IN NATURE Fundación Montenmedio Contemporánea

Last week Year 6 had the opportunity to visit one of the most incredible **outdoors museums in the world.**

Artists from all over the world have been working in the open nature creating their art. They based their art on the surroundings and **using materials and resources from the local area.**

Children had an amazing time, enjoying the experience of being in such an incredible outdoor museum.

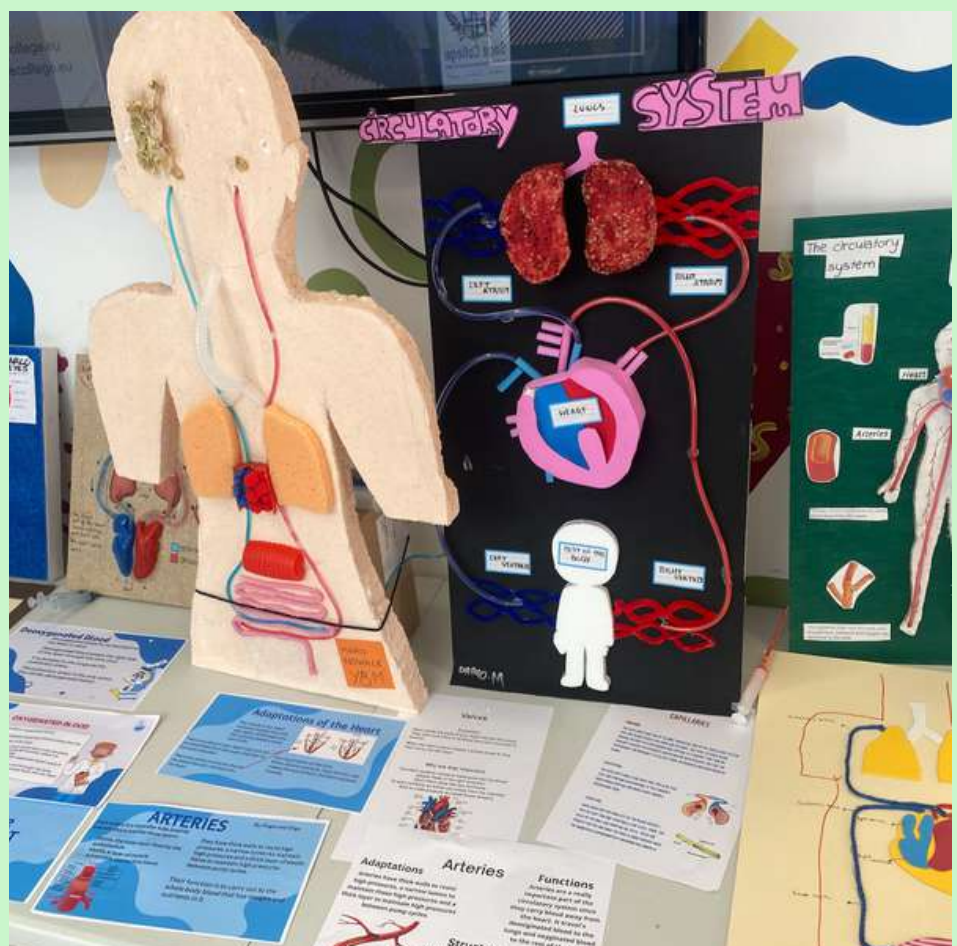

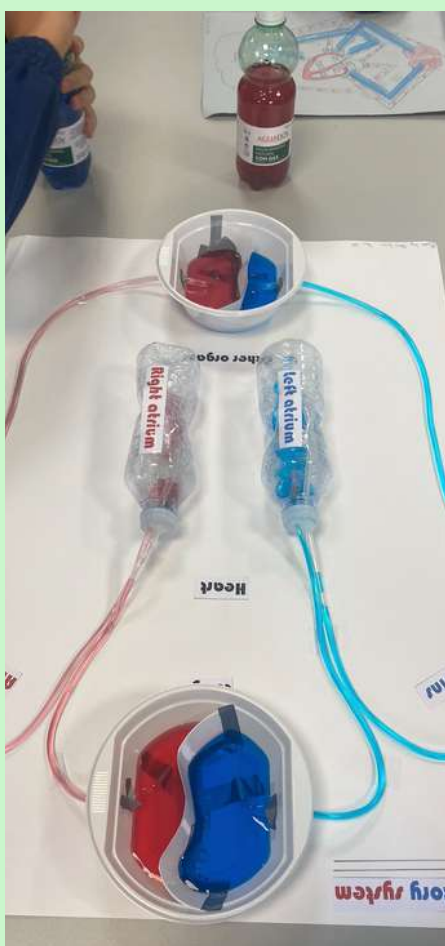

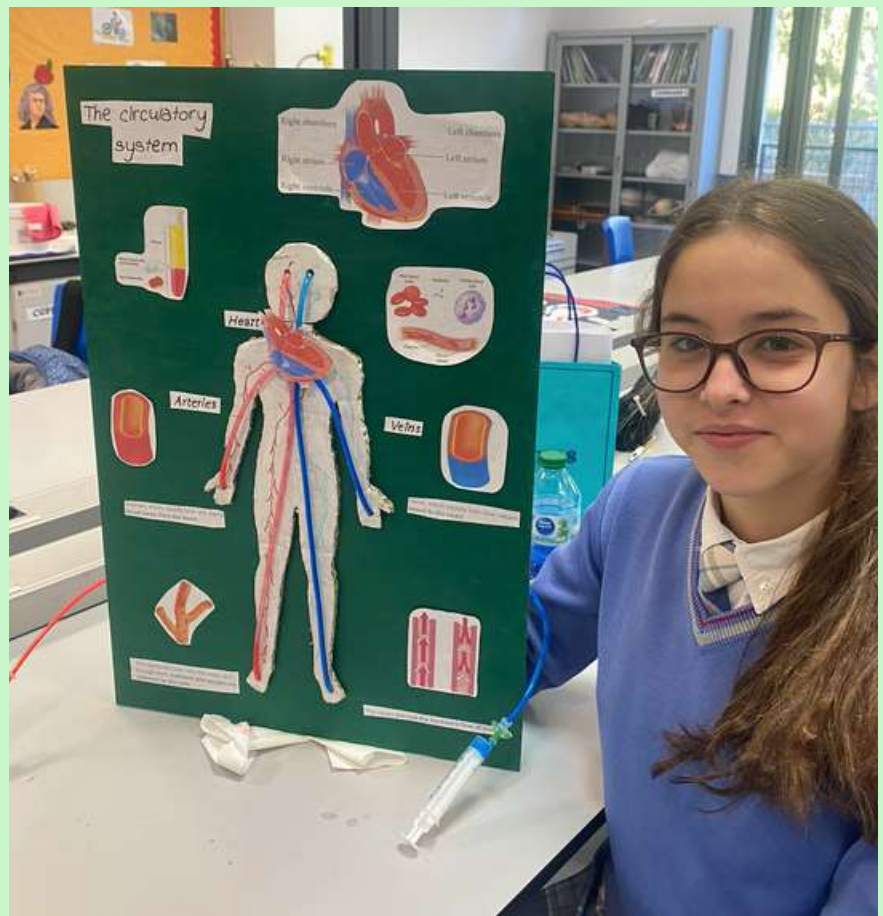

- MIDDLE SCHOOL NEWS -

SCIENCE IN Y8 Model Competition

Students in Year 8 have been learning about the **circulatory system** and how the **structure of the heart** is linked to its function. The heart has adaptations such as the left ventricle wall being thicker than the right as it has to pump blood much further around the body. Students were asked to **create a 3D model** that shows how oxygenated and deoxygenated blood is transported around the body. The response was absolutely magnificent as some students managed to create working systems using clear plastic tubes and dyed liquids, check out some of the fantastic finalists below.

The eventual winners were Marco Nowack and Alejandra Bishopp (both from 8M). The Science department couldn't pick a winner between them as they were both so excellent, congratulations to you both!

CELEBRATING SUCCESS

It's important to remember to **celebrate the success of our students and their achievements outside of school life.**

Below you will see some of our talented students. **Blas Luna** is the up and coming table tennis player that has recently won the provincial tournament for his age category, representing his club CTM Jerez; congratulations, Blas! **Celia Mancha**, a talented musician, is the youngest participant in the Young International Orchestra of Seville playing the viola.

Congratulations, Celia! Finally, we have **Martina Núñez and Pablo Miranda**; Pablo was a finalist and Martina the 1st Prize winner in the 'II Certamen Dibujo de Jerez', demonstrating their fantastic artistic skills. Their photos will be on display on the Wall of Merit in the Secondary corridor.

Congratulations!!

Blas L. Y8

Table Tennis Winner
of the province in his
category 2022-
CTM Jerez

Congratulations!!

Celia M. Y7

Youngest participant
in the Joven Orquesta
Internacional de
Sevilla (JOIS) playing
the viola

Congratulations!!

**Martina N. and
Pablo M. Y7**

1st Prize and Finalist
in the "II Certamen de
Dibujo Jerez 2022"

SHAPING THE FUTURE

Preparing for what is to come

Getting **guidance for the future** (how to prepare for an interview, or the different kinds of jobs) is important for the students to start to make decisions. During **PSHE time**, the High School tutors worked on these different aspects with the students. Working together for the future!

SPORT COMPETITION

Promoting sports

Recently, some of our students participated in **different sport competitions at Chapín**. Our High School students that participated **got amazing results**, and we would like to congratulate them on their great performance. Well done!
